Egor Zlobin
SENIOR WEB DEVELOPER

I'm Egor Zlobin, a web developer. As a full stack developer, I have a strong understanding of both front-end and back- end development. With expertise in Python programming language and React framework, I am capable of creating efficient and scalable web applications. I am skilled in developing interactive user interfaces, implementing RESTful APIs, and integrating third-party libraries. My attention to detail and problem-solving abilities allow me to deliver high-quality code and meet project deadlines effectively.

WORK EXPERIENCE

Full-Stack Web Developer
Kyors.ai
10/2020 - 04/2023

Achievements/Tasks
- Created accessible, responsive, and functional UIs with React.js to allow visitors on any device to have the same perfect user experience
- Led the development of a scalable web application using Python and Django, implementing robust backend functionality, integrating third- party APIs, and optimizing database performance for a seamless user experience.
- Proficient in Python and experienced in leveraging Django framework to build robust and scalable web applications.

Back-end Developer
Revez Corp Ltd.
03/2019 - 07/2020

Achievements/Tasks
- Contributed to a cross-functional team in building a feature-rich web application using Python and Django, where I designed and implemented complex data models, implemented RESTful APIs, and ensured efficient code quality through thorough testing and debugging.
- Unit test and manage tickets with issues.
- Developed object-oriented code in Python Django with 100% accordance to industry and company standards.

Front-end Developer
AliExpress
11/2016 - 12/2018

Achievements/Tasks
- Successfully delivered a high-performance e-commerce platform utilizing React.js and Vue.js, where I collaborated with frontend developers to create a user-friendly interface, integrated secure payment gateways, and implemented advanced search and filtering functionalities, resulting in increased customer engagement and sales.
